Current Fresh Expressions Country Teams

Australia, Austria, Botswana, Democratic Republic of Congo, Canada, Germany, Kenya, Namibia, The Netherlands, New Zealand, Norway, South Africa, Sweden, Switzerland, United Kingdom, United States and Zimbabwe

Fresh Expressions Ministry DNA

- God is relational, we want to be relational too.
- We are continually discerning the future of the movement and the addition of international partners/teams through listening, loving service, building community, making disciples and forming church
- The Fresh Expressions Journey is *alongside* others (Mark 3:14) as Jesus calls us to journey with him, so we journey with others.
- Our international partnerships promote creativity and family-like experiences facilitated by a range of international colleagues whereby missional formation is both taught and caught.

Working Group Outcomes for the International Fresh Expressions Community

- **International Web Presence**
We propose creating a simple web presence where anyone searching for Fresh Expressions can find links to each country/organization. Gannon Sims from the US Team is working on this on our behalf.
- **Close Relational Connection**
We want to be open-handed and innovative with new countries/teams but we also want to remain faithful to what we were given

- **Remain True to Source Material**

We are all free to adapt the learning and training materials but want all countries to have access to the source material included in Vision Days, Mission-Shaped Intro and Mission-Shaped Ministry

- **Resources and Gatherings**

The working group will develop a list of resources offered by our various country teams and will identify additional opportunities for international connection and gathering

- **Regional Leadership**

We want to empower existing FX leadership teams to convene and train new country teams in their regions.
